

100 Ton 4-Post Triple Action Press

Tonnage:	100
Application:	Multi-Action General Forming
Industry:	Appliance
Frame Style:	4-Post
Special Features:	<ul style="list-style-type: none"> • External feed system • Bed ejector

Custom Features:

- Used to form parts for industrial appliances
- (4) 6" diameter chrome housing posts with graphite impregnated bronze bushings for superior ram guidance and rigidity
- Bed ejector plate forming capacity: 30 Tons; Ram ejector plate forming capacity: 80 Tons
- Ejector plates guided by 4 non-lube bushings, equipped with linear transducers and proportional directional valves to control position to $\pm .13$ mm
- Light curtains guarding the front and rear openings; bolt-on expanded metal guarding on the sides
- Integrated with external feeder system, un-coiler and oiler
- Kidney loop filter/cooler circuit with thermostatically controlled fan motor

Common Features on Beckwood Presses:

- Heavy duty box beam design for superior rigidity and modular tie rod assembly utilizing pre-tensioning nuts for optimum performance
- Fully adjustable Parker cylinders with full rated tonnage throughout the stroke
- PressLink Remote Support module for complementary diagnostics & troubleshooting
- Dual linear and pressure transducers in the main ram cylinders for optimal reliability and redundancy
- Allen Bradley or Siemens PLC, programmable control system with touch screen HMI and Recipe Functionality
- Structure designed for Infinite Life in accordance with rigorous simulation analysis through FEA (Finite Element Analysis) design testing
- Backed by Beckwood's industry leading dedicated service and support team
